**Care and Cleaning Instructions:**

- All spills should be treated promptly for best results and ease of removal.
- Most spills can be cleaned by gently lifting the spill with a paper towel, or a clean, dry, absorbent cloth.
- The use of a paper towel, or clean, dry, absorbent cloth alone may not completely remove the spill. For further treatment, these guidelines are suggested for best results.

**MIX** - Use a water based soap mixture that combines 1 tablespoon of a liquid detergent, with 16 ounces of lukewarm water.

**BLOT** - Dampen the cleaning cloth in the mixture and gently blot the soiled area. Avoid rubbing the fabric.

**RINSE** - Rinse the area with a clean, damp cloth to ensure that all of the soap residue has been removed.
