Please note:

- The 2.5 seater dual-recliner comes in 2 pieces, so an armless can be inserted into this piece.
- The 2.5 seater 1 arm electric recliner in the corner modular TM/TS/TMB/TSB comes in 1 piece, so an armless can not be inserted into this piece.
- ONLY EQ can be inserted between 2.5 1arm-ELE-RC and corner terminal.
- EQE can NOT be inserted next to the corner terminal, because the recliner won't open. If customer wants to add a 1.25 armless recliner, the configuration needs to be:
 - EGE + EQE + EQ + N = 1.25LAF RC-ELE + 1.25 NA RC-ELE + 1.25NA + RIGHT TERMINAL CORNER,
 - or
 - EHE + EQE + EQ + NA = 1.25RAF RC-ELE + 1.25 NA RC-ELE + 1.25NA + LEFT TERMINAL CORNER

BATTERY-OPERATED RECLINER OPTIONS
TSB (L) / TMB (R) = 2.5S 1 ARM (1MOT)-BATT-ELEC + TERMINAL CORNER

Battery IMPORTANT information

- 1) The battery pack needs to be charged initially for 12 hours before use.
- 2) You **MUST** charge it every 4 weeks otherwise the battery life will fail. User must never let unit fully discharge as this shortens the life of the battery pack.
- 3) Battery pack is warranted for one year - replacement battery packs are available for purchase if required.
- 4) If the light is orange, this means it's fully charged.
- 5) If light is red, this means the battery pack needs recharging
- 6) No light means battery pack is discharged and requires charging
- 7) If going away on an extended holiday, user should switch off at the back, just by pushing it off and then back on when home again

PLEASE SEE BELOW PHOTO OF WHERE THE BATTERY PACK GETS INSERTED INTO THE LOUNGE IF CUSTOMER PURCHASES THE BATTERY PACK OPTION.
